

POLLINATOR FIELD DAY

**OCTOBER 5 | 1-4 PM
WHETSTONE PARK PRAIRIE**

You're invited to the Pollinator Field Day to celebrate the new, improved pollinator habitat at Whetstone Park Prairie. This event is family-friendly and includes something for everyone!

Activities include: pollinator scavenger hunt, bee relay, pollinator garden tour, and a bee strength test. Also learn how to catch, tag and release Monarch butterflies, and use the iNaturalist app.

Master Gardeners Volunteers will be available to share advice on how to help pollinators in your garden. You can also join volunteers to help weed the new prairie!

Join us anytime between 1-4 PM.

Whetstone address: 3923 N. High Street. We will meet near the shelter house at the bottom of the hill that leads down into the west end of the park.

See you there!
