

Clean Water Shop

and Be the Solution to Stormwater Pollution

1

Vehicle Maintenance & Washing

- Perform maintenance indoors whenever possible.
- Monitor parked vehicles for leaks.
- Use drip pans to contain fluids.
- Wash vehicles & parts where waste can be collected for disposal.

2

Spill Prevention & Cleanup

- Clearly label containers.
- Clean up spills & leaks immediately with absorbent material (kitty litter, rags, mop, etc.)
- Notify the fire department for large or hazardous spills.

3

Material Storage & Waste Management

- Store materials and parts indoors whenever possible.
- Locate outside storage areas away from storm drains and provide containment and cover from the rain.
- Keep lids to outdoor waste containers closed when not in use.
