Creating Conservation Solutions for Over 70 Years

Central Ohio Stormwater Roundtable July 15, 2021

MS4 Post Construction Programs and Implementation Practices

The recording of the live event can be accessed through our YouTube Channel at:

<https://www.youtube.com/watch?v=Q9g13KinW3Y>

A PDF version of Dave's presentation can be accessed at

https://www.franklinswcd.org/data/doc_lib/1289/Dave%20Reutter%20Presentation_7-15-2021.pdf

There was a question asked during the event about whether OEPA would require co-permittee status if one MS4's project was utilized by another to meet the permit requirements? ***We did receive a response from OEPA that confirmed no co-permittee is needed and referenced Part III; Section C: Sharing Responsibility of the new MS4 Permit*** (page 21).

Reminder that the City of Columbus Stormwater Drainage Manual has been updated and can be found online, with a manual on inspection and maintenance of BMPs in progress.
